# QUALITY IS OUR TRADITION

The cornerstones on which the success of our business is based are: End users of the Viking workwear, who feels comfortable and good. Distributors, who see Viking as a trustworthy and fair partner. Suppliers who solve challenges in a close cooperation with Viking. Employees (Vikings) who motivated and delighted meet their daily work and challenges.

Our salesteam and distributors around the world, will in Faaborg, Denmark, always find a team of competent and technical specialists, who are ready to solve and work out technical solutions. Solutions, which our Design department translates into functional and attractive new designs. Here the around 400 highly skilled employees in Viking Vietnam, takes over and manufacture high quality workwear.

The central values of partnership, reliability and mutual respect, are all values passed on from generation to generation and latest from Kurt Mikael Andersen to his son Alexander Mygind Andersen, who from 2017, entered the management of the company.

# HISTORY

## 1935

Viking Rubber Company A/S is founded by the Rasmussen brothers near Asnaes on Zealand. The family-owned company started out by producing heavy-duty rainwear for industry and agriculture as well as for commercial fishermen.

## 1976

The Company is sold to Svend Aage Andersen and Kurt M. Andersen.

## 1991

First step on the way to outsourcing Viking's production facilities to Eastern Europe.

## 2006

New production plant of 2.000 sqm is opened in Ho Chi Minh City, Vietnam.

## 2008

The production facilities in Ho Chi Minh City, Vietnam are expanded from 2.000 to 6.000 sqm.

## 2013

Viking Vietnam Ltd. becomes SA 8000 certified.

## 2016

Viking Vietnam Ltd. becomes ISO 14001 certified.

## 2017

Alexander Mygind Andersen joins the company management as third generation of the Andersen family.

# BESPOKE WORKWEAR

Very often it appears, that standard workwear garments, do not fulfill the exact requirements of the working place. In those cases Viking Rubber can be your help. Our experience, through several decades, producing bespoke garments, our high skilled team and our high flexibility, will be the perfect partner uncovering the specific requirements of the end user. Whether the working place will be within wind power, airports, off shore platform, transport or industry, the Viking bespoke garment will protect against all kind of hazards, rain and wind.

The developing course always proceeds in a very close cooperation with the end-user. Through meetings and interviews on site, the requirements are uncovered. Next step is showing the proposed details and functions for the garment for approval by the end user or purchaser. Next step is samples for wearing tests, and if approved, production can start, and a new satisfied Viking customer or end user has been convinced.

## EVOLUTION WHEN YOU REQUIRE THE BEST

Whether it is for Crafts or Industry, the EVO Collections will meet your requirements. EVOBASE - Lightweight trousers, bibtrousers, shorts and jackets, fabric 250g/m<sup>2</sup>.

The heavy duty line is EVO35, when long lasting, high comfort garments for craftsmen are required. Trousers, bib trousers, shorts and jackets, fabric 310g/m<sup>2</sup>.

When Hi Vis safety garments in compliance to EN ISO 20471 is required, the EVOLITE Collection offers high comfort, light weight and safe trousers, bibtrousers, tool waistcoat and jackets, fabric 235g/m<sup>2</sup>.

The heavy duty Hi Vis line is EVOSAFE, when Hi Vis tough, high comfort and safe garments are required. Heavy duty trousers, bibtrousers, shorts and jackets, fabric 280g/m<sup>2</sup>.

## WEARING IS CARING

The Employees in Viking Vietnam do appreciate the social responsibility of the Andersen Family.

With e.g. healthcare and hot daily meals, they experience CSR on a very high level. This high level effected, that Viking Vietnam in 2013 achieved the SA 8000 Certificate.

As an international company we have a responsibility, not only to our employees, but to the environment. Since we put our own procedure in action we have had the ISO 14001 certification which focuses on the environment.
